### **Co- creating Gender Responsive Budgeting in the Agriculture Sector Toolkit**

In mid-September 2023, we partnered with Tanager in Kenya to develop a crucial Gender Responsive Budgeting (GRB) toolkit for the Agricultural sector. GRB offers a transformative opportunity to address the disparities that women encounter when accessing resources, land, and financial support. This approach directs investments towards the specific needs of women, promotes capacity building, and creates equitable opportunities.

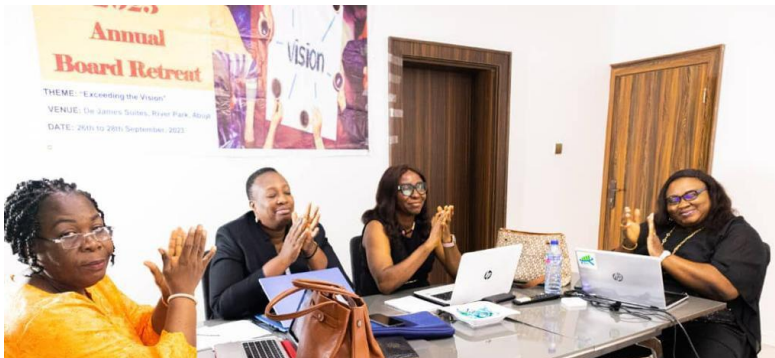

At CGE Africa, our dedication to driving positive change and fostering inclusivity within the Agriculture Sector remains unwavering.
